After an exceedingly successful first German Stroke School at the DGNR 2018 we are pleased to announce the continuation of the German Stroke School at the next joint Conference of the German and Austrian Societies of Neuroradiology in Frankfurt/Main, Germany from October 9th until October 10th, 2019.

Participants will have a comprehensive two-day course that comprises extensive hands-on training using the latest simulation techniques as well as high-yield lectures covering all relevant topics of interventional stroke patient care.

Take the opportunity and get tips from experienced and renowned faculty members!

At the German Stroke School 2019, top-class interventional neuroradiologists will impart their knowledge to young neurinterventionalists in seminars and hands-on workshops.

In order to strengthen the educational character of the German Stroke School, selected participants will be given the opportunity to expand their knowledge and skills during a three-month fellowship in one out of five high-volume German Comprehensive Stroke Centers after taking the course.

Applications for the German Stroke School will be accepted from Dec 2018 until Mar 31st 2019 via www.neurorad-international.com.

Participants’ testimonials on the 1st German Stroke School in 2018:

“…. perfect preparation for real-life stroke treatments!”

“… I am optimally prepared and looking forward to implementing all I have learned into my home hospital.”

“… incredible supervision by leading experts in interventional neuroradiology!”
